

SeeUnity Introduces Echo Content Synchronization 10.5.0 to Simplify Users' Workflow

Denver, CO – August 07, 2019 – [SeeUnity](#), a leading provider of content integration and migration solutions for on-premise and cloud-based Enterprise Content Management applications, is pleased to announce today that its Echo Content Synchronization product (Echo) has been updated with significant enhancements to provide users with streamlined synchronization options.

With this major Echo release customers will benefit from refined synchronization features, improved administrative controls, enhanced reporting, and integration with Amazon S3, Azure Storage, and Worldox. In addition, we've added support for cleanDocs, by Docscorp, to perform metadata scrubbing during the synchronization process to prevent information data breaches.

"This Echo update is part of our ongoing strategy to provide readily applicable solutions that empower our customers to work more efficiently and productively," commented Dan Anderson, CEO at SeeUnity. "Utilizing these modern technologies helps organizations to better serve their own clients by optimizing processes, enabling secure collaboration, and maintaining Information Governance."

The Echo update is immediately available for customers and partners.
