SeeUnity's Velocity Content Migration
Optimized to Support iManage Work 10

Denver, CO – Aug 19, 2019 – SeeUnity, a leading provider of content integration and migration solutions for on-premise and cloud-based Enterprise Content Management applications, is pleased to announce today that its Velocity Content Migration product (Velocity) now fully supports all current iManage on-premise and cloud products. iManage is a leading provider of work product management for law firms, corporate legal departments, and other professional services firms such as accounting and financial services.

SeeUnity and iManage formed an official Technology Partnership in May of 2018, bringing the most comprehensive and in-depth migration tool in the industry to customers migrating to iManage on-premise or to the iManage Cloud. The partnership strengthens iManage's ability to provide professionals with agile tools to securely streamline their business processes.

"By continually evolving and innovating to support iManage's latest versions, our technology partners enable us to provide today's legal professionals with the cutting-edge solutions they require to remain competitive and provide great client service."– Sandeep Joshi, VP, Business & Corporate Development at iManage

Velocity now provides seamless integration and support for iManage Work 10 on-premise and cloud versions. This greatly simplifies the migration configuration and deployment process for iManage customers and partners, increasing the overall efficiency of the projects.

"We'll see significant gains in the performance throughput on these migrations, saving our iManage partners and customers valuable time and effort. Velocity can now be used to its full potential with the increased ability to scale, making the whole process much more efficient," commented Dan Hunsinger, CTO, SeeUnity.

The Velocity update is immediately available for iManage customers and partners.

About SeeUnity

We are content integration experts providing in-depth solutions to connect, sync, or migrate data across on-premise or cloud-based ECM solutions with external business applications. We're dedicated to improving workflow and business processes by extending applications and connecting people with content. We've been perfecting the integration of ECM systems since our inception in 2004 by two industry veterans seeking to provide real world solutions for the complex challenges surrounding content management. Today, SeeUnity supports a growing list of 20 connectors and provides comprehensive migration and synchronization tools to 500+ customers and 30+ partners worldwide. We proudly serve customers of all sizes, including Fortune 500 businesses, Am Law 100 and 200 firms, and government entities.
